The Homer Conception of Gowning

"To make gowns for the individual woman; make them true to her type—to suit her mood—to express her personality"—

Madame Homer

Every gown I make is *proof* that the woman is greater than the mode. I build gowns inspired by individualism—the mode is merged into the *personality*.

Wonder of color, grace of line, beauty of material and individualism are the *keynotes* of my success.

I always know what Paris is doing and am always led by it, but never misled.

I trust you will come and see my very unique dressmaking establishment and let me explain to you personally just what the "Homer Conception of Gowning" means.

If you cannot call, may I send you my booklet "T" explaining how I combine Parisian ideas with Homer Ideals at prices that are reasonable?

You can make your skin what you would love to have it

Your skin like the rest of your body is continually changing. Every day, in washing, you rub off dead skin. As this *old* skin dies, *new* forms.

This is your opportunity—make this new skin what you would love to have it by using the following treatment regularly.

Make this treatment a daily habit

Just before retiring, rub in gently a warm water lather of Woodbury's Facial Soap—until the skin is softened, the pores opened and the face feels fresh and clear. Rinse in cooler water, then apply cold water—the colder the better—for a full minute. Whenever possible, rub your face for a few minutes with a piece of ice. Always dry the skin thoroughly.

Use this treatment persistently for ten days and your skin will show a marked improvement. Use Woodbury's regularly thereafter, and before long your skin will take on that greater loveliness which the steady use of Woodbury's always brings.

Woodbury's Facial Soap costs 25c. a cake. No one hesitates at the price *after their first cake.*

Do this today

Tear out the illustration of the cake below and put it in your purse as a reminder to get Woodbury's. Tear out the cake now. Take it to your druggist or toilet counter today. Begin tonight to get the benefits of this *facial* soap.

A New Kind of Piano Player

Play it with one foot without effort. That is piano playing—not running a foot press.

Even a crash of chords does not require murderous pedalling, and to make a note whisper is as easy as if you were a skilled musician. It is all in the motor.

The wonderfully compact little metal Gulbransen Vacuum Engine marks a new era in piano playing. You can have one in your new piano of any make. You can install one for little money in your old piano. You can replace a worn-out player with a Gulbransen for a fraction of the cost of a new instrument.

Fits in upright piano without the slightest injury in any way to the appearance, case, action, or tone of the piano. Installed without weakening the back of the piano. Non-visible. Uses standard 88-note rolls.

GUARANTEED. SOLD ON CONVENIENT TERMS. You save a third by dealing direct with the manufacturers. Write for estimate to
